

Roseville Residents
SAVE ENERGY AND MONEY IN YOUR HOME

Part 1: Get an in depth energy analysis when your energy auditor conducts a blower door test, an insulation inspection including an infrared camera, and safety check on your home’s heating system. After your visit you will receive a formal report with next steps and recommendations.

Part 2: Improve your energy bills immediately with Home Energy Squad. Based on your home’s needs, a two person crew will install LED light bulbs, door weather-stripping, a water heater blanket, programmable thermostat, and water saving showerheads and aerators.

\$70 \$10 Home Energy Squad Enhanced visit. Normally this visit is \$70. However, the City of Roseville will pay \$60 for the first 200 city residents who complete their visit. Thanks to Roseville, you can get this service for just \$10.

Don't need the above Part 1 and Part 2? Sign up for separate services:

- Free Standard Energy Audit. Normally \$60 through Xcel Energy. Roseville will pay for the first 200 visits signed up.
- \$70 install-only visit

Name _____

Address _____ ZIP _____

City _____ Primary Phone _____

Email _____

I understand that by submitting this form, Xcel Energy will provide Center for Energy and Environment my 13 month energy bill history to be used for the purposes of my Home Energy Audit and my Home Energy Squad visit. I understand I must pay for my Home Energy Squad materials during the installation visit. The Home Energy Audit will be paid for by the City of Roseville.
